

EXAMPLE SITE PLAN AND NARRATIVE

At a minimum, the Site Plan should show:

1. property lines and acreage
2. all existing structures, porches, and driveways
3. all proposed structures, porches, and driveways
4. proposed site work locations (grading/fill/excavation)

This project involves the construction of a 2,000sf single family residence, driveway, and patio on a 10.445 acre lot. There is an existing barn on the property. Site work involves construction of a driveway and adding fill for building pad preparation.
