COUNTY OF GILLESPIE ... Investment Portfolio Summary ... For the Period Ending December 31, 2014

## COUNTY OF GILLESPIE, TEXAS

### Investment Portfolio Summary

In accordance with the Public Funds Investment Act Sec 2256.023, not less than quarterly, the County Investment Officer shall prepare and submit to the Commissioners' Court a written report of investment transactions for all funds for the preceding reporting period.

This portfolio is in compliance with the County of Gillespie's Investment Policy and applicable laws. The information contained in this report should not be used for any purpose other than determining compliance with the Act.

**General Statement:** The County continues to take a conservative approach to investment of county funds. Investment strategies are built on cash flow versus fund name. County funds are predominantly invested in TexPool and Texas Class ... investment services for public funds ... and certificate of deposits. Depository interest-bearing checking accounts are used more as clearing accounts than a type of investment. The General Checking Account (multi-fund account) ... interest-bearing, with a one dollar (\$1.00) threshold ... is attached to a sweep account with a \$25,000.00 required minimum balance. The GOB2013 Jail Project bond funds are also in an interest-bearing checking account, with a one dollar (\$1.00) threshold ... and attached to a sweep account with a \$25,000.00 required minimum balance.

Laura Lundquist  
County Treasurer ... County Investment Officer

COUNTY OF GILLESPIE ... Investment Portfolio Summary ... For the Period Ending December 31, 2014

### **Section 7.03 General Fund Group ... A Pooled Fund Group**

The County's operating expenditures and revenues to fund those expenditures are accounted for in the County's general fund group (General F.10; Road & Bridge F.15; Road Precincts F.16, F.17, F.18, F.19). Most of the general fund group is pooled with other County funds for investment purposes unless specific restrictions are placed upon such funds. The investment strategy for the general fund group, as well as for the County's investment pool as a whole, is the Matching Approach.

The maximum allowable stated maturity of any individual investment relating to the general fund group is twenty-four (24) months. Prior approval of the Investment Committee must be received before investing beyond a stated maturity of twelve (12) months. Prior approval of Commissioners Court, upon recommendation of the Investment Committee, must be received before investing beyond a stated maturity of twenty-four (24) months.

### **Section 7.04 Special Revenue Funds**

Operations that are funded with restricted revenues are accounted for as special revenue funds. Most of the special revenue funds are included for investment purposes in the County's investment pool except for some grant funds. Certain grant agreements require the use of separate bank accounts restricted for use of proceeds under the grant agreement. The investment strategy used for all special revenue funds not included in the County's investment pool is the Matching Approach.

### **Section 7.05 Debt Service Funds**

The debt service funds are used to account for bond proceeds. The debt service funds are not pooled with other funds but are separately invested largely in an Investment Pool with assets available on demand.

### **Section 7.06 Interest and Sinking Funds**

The interest and sinking funds are used to account for the accumulation of resources to fund periodic principal and interest payments on outstanding obligations. The revenue stream is predictable and the majority comes from ad valorem tax. The interest and sinking funds are not pooled with other funds but are separately invested. As practical ... funds may be invested in an Investment Pool account with assets available on demand.
