Captioned Calls

WELCOME TO OLELO

The first FCC-approved IP CTS app service to use 100% automated speech recognition.

NO MORE LANDLINES.

Olelo goes wherever a user goes. The app syncs with users' contacts so they can make or receive captioned calls directly from their Android or iOS device.

FAST, ACCURATE, AND EASY.

Olelo automatically transcribes both sides of the conversation in a familiar format that reads like a text chain.

FREE FOREVER

Olelo is 100% free for patients with hearing loss. Our FCC-approved call captioning mobile solution means users will never miss out on an important conversation again.

SOLVE YOUR PATIENT'S MOST COMMON CHALLENGES

Be a technology leader by offering the latest advancements in captioned calling services. Your patients will be delighted with this simple to set up, easy-to-use solution.
