

County Owned T-Hangars

The County owns 3 t-hangars that can support 20 small aircraft. They are fully enclosed with sliding doors. The majority of the facilities are “open bay” with limited electrical access. Access to the hangars is from the north ramp and the facility has quick access to the runway.

- For the monthly rent, see the “Airport Rates and Fees” link on the main page. (Note: if you pay for the entire year (in January), you get a month free)
- For T-Hangar availability and information contact:

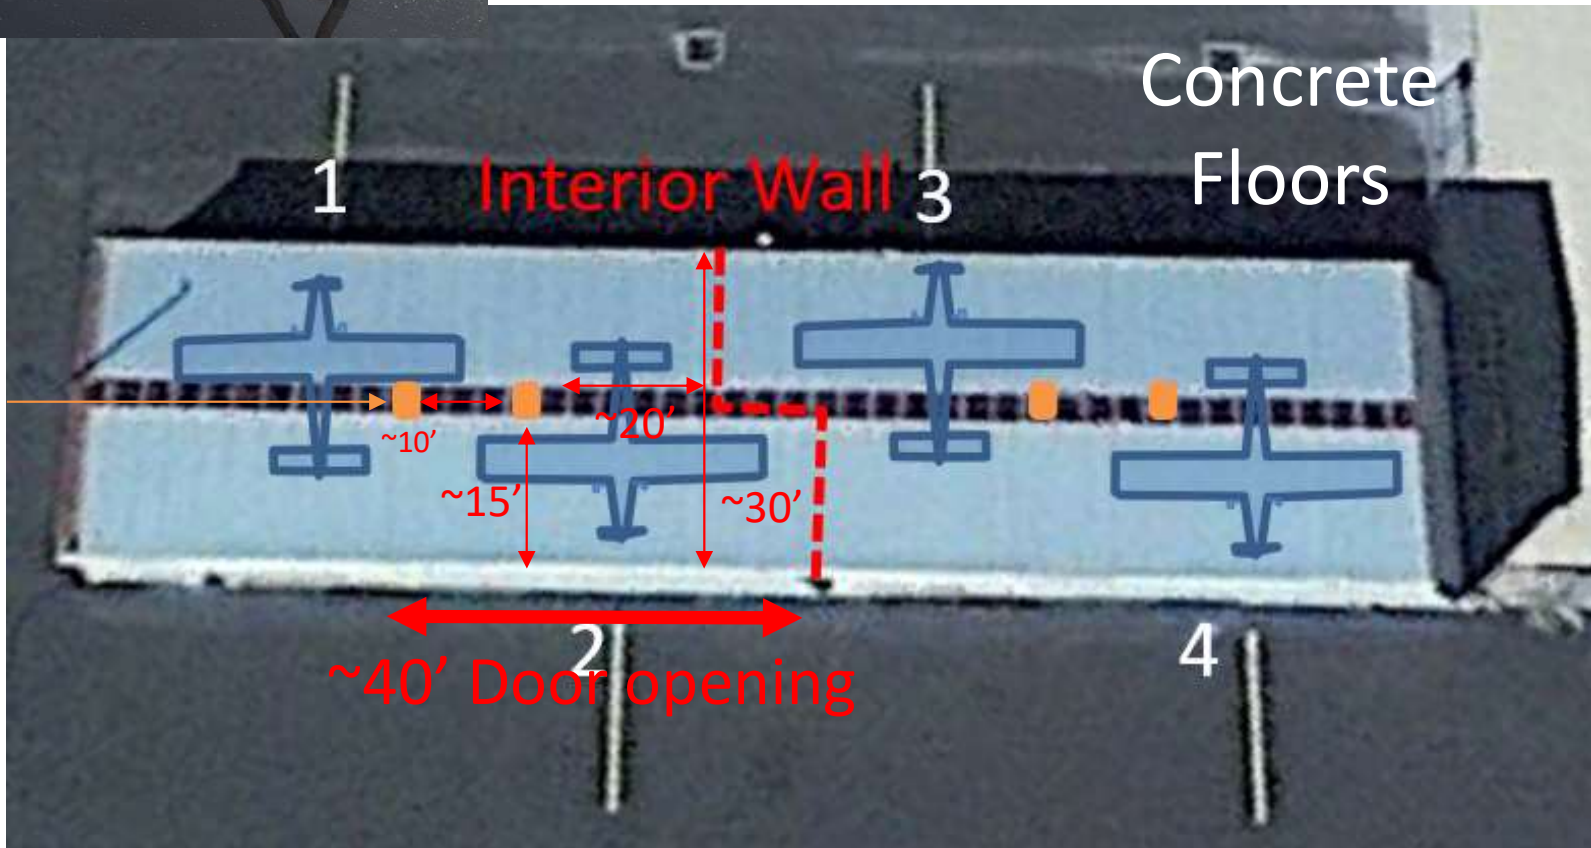

Tony Lombardi, Airport Manager
